

# MATTAWISHKWIA LAKES

*Dates: June 20<sup>th</sup>, 2025*

*Contact me for availability*

*Available in the spring and summer*

*1 day*

*6 people*

*Beginner*

Description: On this day, we travel on the Mattawishkwia River to get to the Mattawishkwia Lakes which are made of truly unique ecosystem. These lakes played an important role for wild rice harvesting in the life of First Nations. The creeks to get to the lakes makes you feel like you are in the jungle because of the black ashes. It is also the paradise of multiple bald eagles. Great chance of them flying right over us. Amazing for bird / duck watching. See beaver dams and lodges.

Itinerary: We will meet at the landing north of Hearst for 10am. (7 minute drive) (Google maps link will be provided upon booking for meeting point) We will head down river to the first lake. We will then have a shore lunch. After, we will go to the second lake. We will then head back up river and arrive at the landing around 2-3pm.

**140\$ per person**

Freighter
